FUEL LOG BOOK

FUEL UPLIFT & CONSUMPTION RECORD

HOW TO USE THIS LOG

Each fueling event shall be recorded on a new line of the Fuel Log Sheet. Record fuel quantities in the unit specified on the SimBrief OFP (LBS). Block Fuel shall match the OFP-planned figure unless a discrepancy is noted in Remarks. Any fuel discrepancy exceeding planned tolerances shall be logged and reported to Dispatch prior to departure.

FUEL FIELD DEFINITIONS

Field	Definition
Block Fuel	Total fuel onboard at pushback
Min Fuel for T/O	Minimum fuel required per OFP for dispatch
Landing Fuel	Fuel remaining at touchdown
Fuel Burn	Block Fuel minus Landing Fuel

Revision 1 - Effective 09/25/2026 - 1200Z
