PILOT FLIGHT LOGBOOK

COMMERCIAL FLIGHT OPERATIONS RECORD

HOW TO USE THIS LOG

Each flight leg shall be recorded on a new line of the Flight Log Sheet. Record all times in Zulu (UTC) unless otherwise noted. Block times are measured door-to-door (OUT to IN); flight times are measured wheels-to-wheels (OFF to ON). Landings shall be counted per touch-and-go or full-stop as applicable. Page totals shall be carried forward to the next log sheet. The PIC certification block must be completed and signed at the end of each duty period.

LOGGED TIME DEFINITIONS

Field	Definition
Block Time	OUT to IN (gate departure to gate arrival)
Flight Time	OFF to ON (wheels up to wheels down)
Landings	Total full-stop landings this leg

Revision 1 - Effective 09/25/2026 - 1200Z
